

Kate Bender-Directress

Kate Bender is an Association Montessori Internationale trained teacher. She will be running this program using Montessori principles to show you and your child the benefits of an early childhood Montessori education.

The classroom will be set up using materials that can be used individually. There will also be group music, movement and story time each time we gather.

This is a great introduction to the Montessori method and a fun way to meet other families with children in the same age group.

Each week you can also look forward to a short handout on a way to incorporate Montessori into your home! This will move your child towards more independence.

Toddlers and Montessori

Community Montessori School inspires a life-long love of learning in children by allowing them to develop at their own pace in an authentic, AMI Montessori environment that embraces diversity, individuality, and community.

Enjoy time with your child and other moms/dads in a Montessori setting!

Maria Montessori believed that a focused child is a happy child. Bearing that in mind, we will allow your child plenty of opportunities for uninterrupted activity. Like every skill, concentration deepens with practice.

While children learn much through observation, it is necessary to spend some time patiently teaching these skills as a part of the daily routine. During these teaching sessions, it may be helpful to remember the following:

- Let your child learn at his/her own pace.
- When your child tries something for the first time, the focus should be on his/her effort, not the end result.
- Don't interfere with your child at work. Allow your child to concentrate on the task at hand and problem-solve on his/her own.

Mommy, Me and Montessori is the perfect place to practice these new skills with the help and guidance of a trained Montessori teacher. Ask questions, talk with other moms/dads and find out more about the Montessori method!

"And so we discovered that education is not something which the teacher does, but that it is a natural process which develops spontaneously in the human being. It is not acquired by listening to words, but in virtue of experiences in which the child acts on his environment. The teacher's task is not to talk, but to prepare and arrange a series of motives for cultural activity in a special environment made for the child."

-Dr. Maria Montessori

The Absorbent Mind

Your child will learn from watching the teacher's actions as well as your own in this carefully put together program. Toddlers are naturally curious, and they will be able to explore in a safe environment just for them. We will empower your child to use their independence and develop their fine and gross motor skills as well as work on social skills!

Mommy, Me and Montessori

This program is designed for young children, ages 18 month to 2 1/2 years old and their parent/caregiver. The classes are held at Community Montessori on Tuesdays from 9am-10am starting Tuesday, February 2nd.

*Maximum class size not to exceed 10 children.
